

Greetings Valued Customers/Friends:

It is hard to believe that it's been over 50 years of *Eating, Drinking and Sleeping* tractor parts. From the moment dad purchased our local Oliver dealership in 1971, I have had my nose in parts books. While I can not think of a better fit for me over these many years, it is time to realize that I can not keep up this crazy 24/7/365 pace of being a "one-man" operation as I have for over 25 years now.

I don't plan on completely backing away any time soon, but it is definitely time to start taking better care of my health and enjoying the family (especially those Grandkids). Updates posted on [www.RicksAgParts.com](http://www.RicksAgParts.com) - Blessings, Rick
